Arpan Bhalla

FULL STACK DEVELOPER

About Me

I'm a recent graduate of General Assembly's Web Development Immersive course with a background in engineering. I love to solve problems and my main objective is to learn as much about coding as I can, to become an awesome developer.

I'm currently looking for an opportunity that would allow me to work alongside experienced developers and help me gain experience in solving problems in a creative and effective manner.

`Past Experience

Jul 2016 – Oct 2016	**Web Development Immersive - Student**
